

Sprint 1 Report

Smartmeal

Smart team

2/3/2023

Actions to stop doing:

- Naming a feature completely done without documentation. This can lead to a disconnect between the frontend and the backend as it can be difficult to understand what the code is doing without a clarifying document comment.

Actions to keep doing:

- We are communicating well with our tri-weekly scrum meetings as well as in person long form meetings.
- Our scrum meetings are from 1:15 to 1:30 pm on Monday, Wednesday, and Friday and we plan an in-person meeting every 1-2 weeks to discuss difficulties and the direction our product is going. This clean and consistent form of communication allows us to pivot quickly in case we run into any roadblocks as well as allow for people to comfortably give feedback to the rest of the team.

Work completed:

- Home page with days of the week
 - As a user, I want to see what meals I have planned for the days of the week
- Login page
 - As a user, I want to be able to log in so that I can see my specific meal plans
- Adding meals to the days of the week
 - As a user, I want to be able to add meals to days of the week so I can plan out my food for the week.

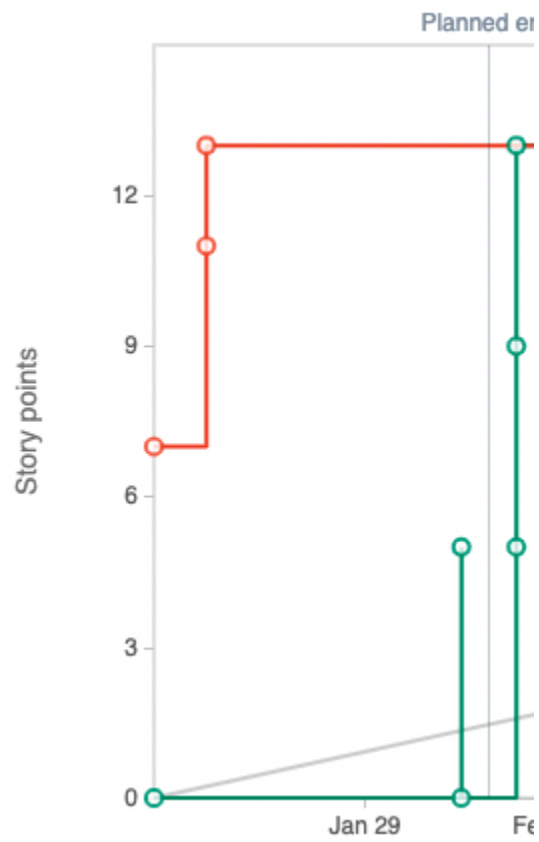

Work not completed:

- Signup page
 - As a new user, I want to be able to sign up and create my own account in order to see my personalized meal plans.

Work Completion Rate:

- Total number of user stories completed: 3
- Total number of estimated ideal work hours completed during the prior sprint: 13
- Total number of days during the prior sprint: 14
- Our user stories per day across this sprint was 3 user stories over 14 days, rounding out to be 20% of a user story progress per day.
- For our work days, our work would be for roughly 3 hours per day, depending on the issue at hand, it may increase to up to 5 hours or down to 1 hour.

Burnup Chart:

Note: Burnup chart ups and downs are due to inexperience with Jira marking tasks done and marking them undone
